Evidence of Authorization

Lee University is authorized to operate in Germany as a Hochschule. The German government provides a website called Anabin where all universities authorized to operate are listed. Lee University is included on this website as a Hochschule with an “H+” classification. This operation of Lee University (Niederlassung) will be registered with the Ministry of Education in Baden-Württemberg according to Paragraph 72a Absatz 3 LHG before 2017 (Art. 19 Paragraph 12 Absatz 4 Satz 1 3. HRÄG). The German Government requires all foreign universities offering degree programs in Germany to be accredited by a German accreditation agency. This was successfully accomplished with the Evalag accreditation agency and registered with the State Government of Baden-Württemberg in 2020.
